The next dimension of server based computing

XP/VS SERVER

Turn any Windows PC into a Remote Desktop Server

Installing XP/VS Server allows an unlimited number of users to remotely access all their Windows Desktops and Applications simultaneously.

Because compatible Remote Desktop Connection client software is already preinstalled on most devices and operating systems, seamless integration into existing networks without any hardware or software changes is assured.

XP/VS Server is suitable for small and medium enterprises and offers premium support services.

Windows
All Versions

New! Support for Windows 10 and Windows Server 2019
